Projects

Project 1

- Describe any notable recognition or reception for Project 1.
- Describe any notable recognition or reception for Project 1.

Project 2

- Describe any notable recognition or reception for Project 2.
- Describe any notable recognition or reception for Project 2.

Project 3

- Describe any notable recognition or reception for Project 3.
- Describe any notable recognition or reception for Project 3.

Achievements

- **CISSP Certification:** Successfully obtained Certified Information Systems Security Professional (CISSP) certification, demonstrating expertise in information security and risk management.
- **OSCP Certification:** Earning Open Source Certification on Security Protocol (OSCP), showcasing skills in vulnerability assessment and penetration testing.

Certifications

- **CISSP:** Certified Information Systems Security Professional
- **OSCP:** OffSec Certified Professional

Additional Skills

- **Malware analysis**
- Intrusion detection
- **Monitoring and incident response**
- Splunk
- **Cyber security certifications (e.g., CISSP, OSCP)**
- **Cloud technologies (AWS or Azure)**
- **Artificial intelligence and machine learning**
- **Internet of Things (IoT) security**
- **Cybersecurity awareness and training**

Soft Skills

- **Problem-solving**
- **Curiosity about how systems work and how they can be protected**
- **Enthusiasm for developing skills**
- **Effective communication**
- **Collaboration and teamwork**
- **Time management and prioritization**
- **Adaptability and flexibility**
- **Teamwork and collaboration**

Languages

- **English (Fluent)**
