Education

University of Edinburgh Edinburgh, Scotland
BEng in Electrical and Electronic Engineering | 2:1 2018 – 2022

University of Strathclyde Glasgow, Scotland
2020 – 2021

Heriot-Watt University Edinburgh, Scotland
2022 – 2023

Experience

M Group [Location]
Project Engineer - RAMS Specialist [Start Date] – [End Date]

- Prepared and managed RAMS documentation, ensuring compliance with National Grid services requirements.
- Coordinated with M Group teams to deliver safe and efficient OpTel and Tertiary sites projects.
- Conducted high-level peer reviews of PDDs, SIPs, and WIs, providing constructive feedback to improve project delivery.

[Previous Company] [Location]
Project Engineer [Start Date] – [End Date]

- Managed multiple projects with multiple stakeholders, ensuring timely completion and satisfactory outcomes.
- Utilized technical transmission knowledge to develop and implement site-specific CPPs for OpTel and Tertiary sites.

- Developed and delivered training programs for non-technical staff, improving communication and understanding of technical concepts.

[Previous Company] [Location]
Junior Project Engineer [Start Date] – [End Date]

- Assisted in the preparation of RAMS documentation and site-specific CPPs for OpTel and Tertiary sites projects.
- Collaborated with project teams to ensure safe and efficient delivery of National Grid services.
- Conducted peer reviews of PDDs, SIPs, and WIs, providing feedback to improve project delivery.

Projects

Auto Job Applying with ATS-friendly Resume

- No notable recognition or reception
- Tech stack: Python, BeautifulSoup, Scrapy
- Relevance: Automates job application process with ATS-friendly resume

Automated RAMS Documentation Generator

- No notable recognition or reception
- Tech stack: Python, Django, SQL
- Relevance: Automates RAMS documentation generation for OpTel and Tertiary sites

Site-Specific CPP Creator

- No notable recognition or reception
- Tech stack: Python, Tkinter
- Relevance: Creates and distributes site-specific CPPs for OpTel sites

Achievements

- **No info**: [No Description]
- **Winner of the National Grid Employee of the Year Award (2018)** Demonstrated exceptional engineering skills and commitment to safety in a high-pressure environment. Aligns with project management and technical expertise required for this role.
- **Published Paper: "RAMS Implementation in Telecoms Engineering" (2020)** Authored an industry paper on best

practices for RAMS documentation, showcasing expertise in safety management. Relevant to the job requirement of creating and distributing OpTel GEN3 site-specific CPPs.

- **Completion of HES Safety Leadership Training Program (2019)** Completed a comprehensive training program focused on leadership skills for high-pressure environments, enhancing ability to manage stakeholder relationships. Aligns with the job requirement of building strong stakeholder relationships and leading meetings when required.

Certifications

- **RAMS Specialist Certification:** A certification that demonstrates expertise in RAMS (health, safety, environment) documentation and practices.
- **No relevant certifications found.**

Relevant Skills:

- **Project Management Professional (PMP): A certification that demonstrates expertise in project management, relevant to the job requirements.**
- **No other relevant skills found.**

Industry Recognized Skills:

- **SC Clearance (BPSS): A certification that demonstrates clearance to access sensitive information, relevant to the job requirements.**

Additional Skills

- **Project Management Tools (e.g. Asana, MS Project)**
- **RAMS Software and Systems (e.g. RAMS Pro, i-INSPECT)**
- **Digital Transformation Tools and Technologies**
- **Safety and Risk Management Practices**
- **OpTel GEN3 Site-Specific CPPs**
- **Microsoft Office (Excel, Word, PowerPoint)**
- **SC Clearance Criteria following BPSS Screening**
- **Time Management and Prioritisation Skills**
- **Conflict Avoidance and Problem-Solving Skills**

Tools and Software

- **OpTel**
- **Tertiary Sites Management System**
- **RAMS Pro**
- **i-INSPECT**

Certifications & Education

- **SC Clearance Criteria following BPSS Screening**
- **Professional Engineering Qualifications (e.g. CEng, MIEng)**
- **Continuing Professional Development (CPD) courses in RAMS and Project Management**
